TOP 1: Examination dates for the winter term

We want to check the exam-dates of this winter term for collisions. We hope to find someone who wants to do until or at the next FS-Sitzung. If you want to volunteer, send an e-mail to fachschaft@mathematik.tu-darmstadt.de.

TOP 2: Thank-you presents for the ATM

In previous years, we baked cookies at the FreWe and gave them to the administrative and technical staff (ATM) of our department to thank them for everything they are doing. This year, the FreWe is online, making baking more difficult. As we still want to thank all ATM, we talk about new ideas to thank them. Ideas include finding a way to bake cookies and deliver them to the Mathebau in a reasonably hygienic way and making a video at the FreWe. Catrin, Carsten, Marc and Varun want to brainstorm.

TOP 3: The future of the OWO Discord-server

For the OWO we set up a Discord server. We want to hand the administration of this server to students starting this semester. Our idea for the server is to become a place where first-semester students can meet. We are looking for volunteers to take over the administration. Joscha, Manuel and Pia want to do it.

TOP 4: Survey on examination dates

We want to talk to someone from the HDA on November 9th or 11th regarding a survey about dates of exams. More precisely, the maths department gave us the choice whether we generally want to have all exams in the first part of the lecture free time or if we want to have them distributed over the full time span. Justus wants to set up a date with Daniel and Kate. If you are interested in joining them, you can contact Justus at justus@mathebau.de.
