## Post and Mails

- ⓐ There will be a charity run for the “Verein für in Not geratene Studierende” (a charity for students in need). It will take place on the 6th of December decentrally. You can find more information and the registration at [www.tu-darmstadt.de/spendenlauf](http://www.tu-darmstadt.de/spendenlauf) (only available in German right now).

📧 We received a list of dates and committee composition from the decanate.

✉ Max has written us a postcard from Verona.

## TODOs

**BK-Zettel** (Marc und Carsten;  $m/\infty$  für ein  $m \in \mathbb{N}$  hinreichend groß)

**Adventskalender** (Daniel, Dennis, Kate, Lara, Nika; 0/1) Lläuft.

**SoFa** (Marc; 10/2) Marc schreibt bald eine Mail. Ganz ganz ganz bestimmt.

**Something heroic** (Marc; 1/1) Marc did it! Whooooo!

**Theaterkontakt** (Theatermenschen; 0/2) What are the primary points of contact of the theatre group?

## TOP 1: Volunteering

During the last months the same four to five people stood up and volunteered for things that noone else is doing. This situation could be improved by resolving to do some small things from time to time. But it is also okay to just listen – everything is voluntary.

## TOP 2: Crisis meeting (cutified)

Dennis has asked for the strategy by which assistants for courses have been assigned. In master courses only two of them have been granted any assistance. Service and bachelor courses had a priority over them.

Furthermore we have asked about the current status of insights of past exams. Currently failed exams are prioritised over the rest.

Cornelia has heard that in some OWOs things were said that are sexist and hostile against women. All present people condemn that.

## TOP 3: The heroes we need, not those we deserve.

We determine who is heroic enough to do various kinds of work for us.

## **TOP 4: Keys for Annika W.**

We decide unanimously that Annika Wolf gets a transponder for the Mathebau and a key for our students councils office.

## **TOP 5: Report from the FBR**

The FBR took place the week before last.

The dean of studies reported that the RMU cooperation with the universities in Mainz and Frankfurt is still going on. We now have a common course catalogue. Moreover, it is planned to have awesome colloquia together regularly.

The number of first-semester students stayed about the same. The proportion of student teachers has risen.

The department thanked the OWO. The department's preparatory course had 1 634 participants, which is 1 000 more than last year. The department created an promotional video for the international master.

Our office of study affairs is severely understaffed. If you can prevent giving them more (unnecessary) work, do that!

Our new dean Karsten Große-Brauckmann reported that the department's saving measures were successful. There should be no more financial cuts in teaching from next semester onwards.

## **TOP 6: Follow-up meeting for the OWOs**

Last week, there was a meeting with the other student councils and several members of central administration. As the meeting was long and much was said, the content will only be presented in German. If there are questions, ask kind people.

## **TOP 7: Moodle link-opener for Android**

Jonas Bernard has written an Android-App, which extends the Moodle-app for Android in its functionality. If you click Moodle links this app opens them in the Moodle app instead of the browser. Further information and download instructions can be found on GitHub: <https://github.com/JonasBernard/TU-Darmstadt-Moodle-Wrapper>

We decide to mention this in the newsletter and add it to the IT tutorial.

## **TOP 8: Office hours tool**

Malte asks whether we would like to further curate the office hours tool. We spent some time on it last term but it is probably only useful if most of the office hours are registered. The office hours tool is generally received as useful.

We decide to send an e-mail via the list of assistants to advertise the tool.
